# **1. ADDENDUM**

2. To “direct” communication, one needs to receive communication...so I invited and continue to invite all everytime to send it.
3. " director " means to give a " direction " politically, scientifically, constantly and with a clear one but flexible way
4. " communications " means the sense of communicate ideas, thinking, pensée, information and mainly ..  
information and ideas to give and to help and to pull everywhere in other countries for innovations, clarification, translations and use in and for national contexts, developmemts, implementations, ideas for common grown as well avanguardie ideas.  
I'll try to continue to do my best in this way, looking forward for larger and internationally similar and developped horizons.
5. As I clearly said in Malta, I accept to be elected only after having well read and accepted the job description if it is changed since it was in Tartu, because I was not informed on it, and I and the Council got some indications in Malta and I indicated many points and levels and personal freedom as pre-condition.
